

Tour your school in Spanish

Today we will record a tour of your school in Spanish to help a Spanish speaking visitor.

Think about the important things you would need to show someone new to your school.

You will need:

- A director
- A reporter
- A producer
- A camera operator

Step-by-Step

Everyone help the presenter to write a script. Remember the Spanish words you will need.

The producer will make a list of the rooms to be filmed.

Go and film, make sure you use the clapper board at the beginning of each room.

You could film the presenter first and then show the whole room by moving the camera around, this is called a pan.

Import the film onto the computer. Then use your skills to edit it. If you need to look back at the editing sheets to remind yourselves.

Words you may need:

- El comedor - dining room
- El gimnasio - gym
- La aula - classroom
- La pizarra blanca - white board
- El patio de recreo - playground

What did you learn?

What was your role?

Why was your role important?

How could your video help someone?
