# Film a Tour of your School

Today we will record a tour of your school to show to someone if they were visiting.

Think about the important things you would need to show someone new to your school.

You will need:

- A director
- A reporter
- A producer
- A camera operator

## Step-by-Step

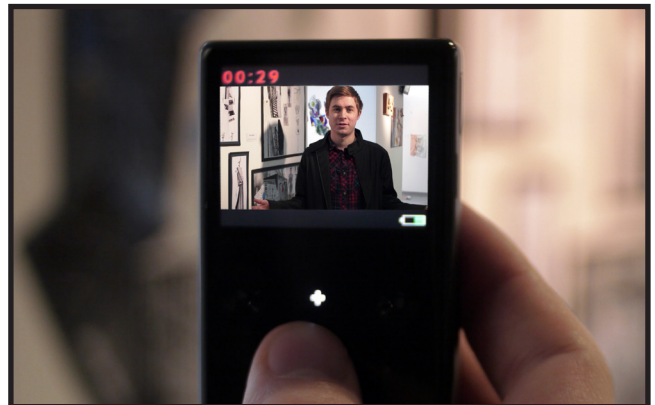

1 First, film your classroom.

Make sure that everyone helps out to make sure the Reporter has something to say and that the "clip" isn't longer than thirty seconds. Explain clearly what the room is and what happens in it.

2. Film the school hall making sure that the Reporter is always in shot. Try not to get other groups in your "shot"!

3. Film your playground. You can do this through the window or outside, ask your teacher which one you should do.

4. Film the corridor, making sure you can see all the colourful things on the walls!

## What did you learn?

What was your role?
